

# Carl Stephane B. Padua

Bachelor of Science in Information technology

## Profile

I'm Carl Padua, an Information Technology student at the Polytechnic University of the Philippines with a strong interest in digital design. I specialize in creating visually compelling content and user-centered designs that enhance storytelling and user engagement. I have hands-on experience in UI/UX and visual design using Figma, Adobe XD, and Canva, as well as video editing for short films and academic projects, where I focus on pacing, visual flow, and narrative impact. I also work on web development.
